

SMART LOIRE VALLEY (SLV) Programme

LE STUDIUM RESEARCH CONSORTIUM Award

Call for Projects 2023

Indicative application format

Introduction:

Please note that this document is designed to share information between the applicant and the host scientist. **Applications must be completed online on the LE STUDIUM website.** An application submitted by email will **NOT** be valid.

To submit an online application, the applicant needs to register on LE STUDIUM website. After validation of her/his account, the applicant will receive an email inviting to access the submission platform.

Important note: the submission platform (under works) will open in the course of January 2023. Applicants who have registered on the current platform will be informed by email. Meanwhile, applicants are invited to prepare their application by using this indicative application format. When the submission platform opens and before the **deadline of 16th February 2023**, applicants will be able to finalise their application, copy and paste elements of part A and & upload the necessary documents including Parts B & C.

The online application is divided into 3 parts:

- **Part A:** General information (online form) and documents to upload (CV, support letters).
- **Part B:** Scientific proposal (document to upload)
- **Part C:** Engagement of the host laboratory (document to upload)

General information:

The parts B and C must respect the following minimum standards:

- ✓ A minimum font size of 11 points, except for Gantt chart and tables where the minimum font size is 8 points
- ✓ Single line spacing
- ✓ A4 page size
- ✓ Margins (top, bottom, left, right) of 25 mm
- ✓ A clearly readable font (e.g. Arial or Times New Roman) on a printed copy

Tables are only for illustrating the core text of the proposal. As such, they cannot be used to contain the core text itself. The page formatting will be systematically checked by LE STUDIUM operational team. For non-compliant proposals, applicants will be asked to reformat their proposal without the possibility of modifying the content. Excess pages will subsequently be disregarded by evaluators.

Footnotes are to be used exclusively for literature references. Their minimum font size is 8. They will count towards the page limit.

Part A:

To complete this part, applicants are invited to use the online form.

1- Applicant's contact details

Give the following details concerning the applicant: first name, surname, title, birth date, nationality, laboratory, institution, professional address, phone number, email, website and specialty.

2- Summary of the proposal

Write a summary of the proposal in English and in French; it may be used in public media if the proposal is funded.

Content limited to 2000 characters for each summary.

3- Ethics

Indicate if the proposal involves collecting data on humans or animal experimentation.

If yes, refer to the Ethics section in the Guidelines and explain your strategy to manage and comply with the requirements for compliance with Ethics regulations in region Centre-Val de Loire and obligations to provide LE STUDIUM with the necessary Ethics Approval documents.

4- New Application / Resubmission

Declare if this application or a similar one has been submitted by the applicant to LE STUDIUM programmes in the last 3 years.

If yes, explain how the application has been improved following evaluators' feedback sent in the Evaluation Summary Report.

Content limited to 4000 characters.

5- CV of the applicant

Upload the CV of the applicant (maximum 10 pages).

6- Support letters

If relevant, upload support letters (from, for example, a company, an academic partner, etc.)

Having support letters is not mandatory.

Part B:

To complete this part, applicants are invited to upload a document (Word or PDF format) on the online platform. This document must respect the standards described in the guidelines of the call and at the beginning of this Indicative Format document.

The maximum total length for this document is 10 pages. It should be composed as follows (detailed description below):

- ✓ Section 1: Scientific project
- ✓ Section 2: Impact of the proposed research
- ✓ Section 3: Track record of the applicant and coherence of the consortium

Of the maximum 10 pages quota applying to the whole document, applicants are free to decide on the allocation of pages between the sections 1, 2 and 3.

If some of the proposed sub-sections are not relevant to their proposal, applicants are invited to ignore them.

After the call deadline, excess pages will automatically be made invisible, and will not be taken into consideration by the experts. It is the responsibility of the applicant to verify that the submitted PDF documents are readable and are within the page limit.

Please find below a proposed plan for the part B (10 pages maximum in total).

Section 1 : Scientific Project

1- State of the Art

Describe the State of the Art in the field related to the project.

2- Aims

Describe the specific aims of the project, including a clear statement of the hypothesis to be tested.

3- Significance

Describe the importance of the problem to be researched, the planned outcome of the research, and the potential significance of the research.

4- Research plan

Describe rationale, phases, milestones and timeline of development for the Consortium.

Section 2: Impact of the proposed research

1- Innovation

Describe the innovative aspects in the proposal specify the contribution of the research project to the development of knowledge in the scientific field.

2- Interdisciplinary dimension

If relevant, show how the proposed research project connects various scientific disciplines.
If relevant, describe how interdisciplinarity is a key factor of the application.

3- Partnerships with socio-economic sectors

If relevant, present the collaborations with private or public companies or socio-economic stakeholders.

4- Intellectual property / industrial applications

If relevant, describe the applications related to the research project regarding industry, economy and/or society. If intellectual property strategy with your host scientist laboratory is already defined, the applicant is invited to present it.

5- Exploitation and dissemination of results

Describe how the new knowledge generated by the proposed research will be disseminated and exploited, and the potential impacts. Discuss the strategy for targeting peers and key stakeholders (such as the scientific community, industry, professional organisations, policy makers, etc.).

Section 3: Track record of the applicant and coherence of the consortium

1- Track record of the applicant

Highlight the career achievements of the applicant and awards including a list of peer reviewed publications in the last five years. Identify up to five publications from this list relevant to this proposal EXCLUDING submitted papers. Book chapters and books should be listed separately.

2- Partner involvement

For each partner describe the role and contribution in the Consortium

For each partner highlight the career achievements in research or industry/enterprise activities.

3- Developing long lasting research links

Indicate if there is a strategy for long lasting research collaboration between the partners of the Consortium.

Part C:

To complete this part, applicants are invited to upload a signed PDF letter

The part C consists in a 2-page (maximum) letter from the applicant supporting the application. The letter must describe:

- ✓ The qualifications and experience of the local laboratory involved in the Consortium
- ✓ The experiences of the local laboratory in the field of research
- ✓ How the proposal fits into the scientific strategy of the local team and/or institution
- ✓ The benefits of the Consortium award for the local laboratory

The part C has to be signed by the applicant, the director of the local laboratory and a representative of one of the local institutions (“tutelle”).
