

LE STUDIUM CONFERENCES

Prof. Dr. Tim **Butler**

IASI Postdam, Air Quality Modelling for Policy Advice - Germany

Research group leader at the Institute for Advanced Sustainability Studies (IASI) in Potsdam, and guest professor at the Institute for Meteorology, Freie Universität Berlin.

His primary research interest is the gas phase chemistry of tropospheric ozone and its precursors, with a special focus on understanding long-range, transboundary transport of ozone, and attribution of ozone pollution to emitted precursors.

He is an editor of the journals Atmospheric Chemistry and Physics and Geoscientific Model Development, and sits on the steering body of the Geo.X research network, a network of universities and research institutes with a focus on earth sciences in the Berlin/Potsdam region.
