

Dr Abderrazak Yahyaoui

Lig'Air - France

Dr Abderrazak YAHYAOUI is head of the research department at Lig'Air (air quality monitoring network in the Centre-Val de Loire region). He has 30 years of experience in air pollution studies. It sets up and coordinates the various air quality monitoring studies and strategies in order to comply with national regulations and European directives (setting up and monitoring the monitoring network, setting up regional emission inventories, fine resolution urban and regional modelling, setting up indicators to support decision-making, improving expertise through applied research, expertise and diagnosis of air quality in influenced environments, air-climate-energy atmospheric diagnosis). He has participated in several studies and publications on air pollution by pesticides at the regional and national levels.
